

Tree Packs

We are proud to be working with our partner nursery [Frank P Matthews](#), established in 1901 and based in rural Worcestershire. The following trees have carefully selected for their size and suitability for different school grounds. (All photos in this document copyright Frank P Matthews)

Container tree pack

The five fruit trees are between 1 and 2 years old and will grow to 2 to 3 meters in height. The trees need to be planted in containers approximately 1 cubic meter in size (and with drainage holes) or 3m apart if grown in the ground. The tree varieties in this pack have been specially selected for ease of growing, cropping and taste.

Broadleaf tree pack

The five broadleaf trees are between 1 and 2 years old and will grow up to 6m in height and need to be planted 5-8m apart. Broadleaf species mix includes trees like Birch, Hornbeam, Wild Cherry, Rowan, Oak and Lime.

Orchard tree pack

The five fruit trees are between 1 and 2 years old and will grow to 3 to 4 meters in height and need to be planted 3m apart. The fruit tree varieties will include a mix of Apple, Pear, Plum and Cherry trees.

Hedgerow pack

Hedgerow packs contain 90 whips which are 0.4-6m in height and will grow to form a hedge between 2-3m in height and 15-18 metres in length. Each whip will need to be planted between 15-20cm apart. The species mix includes Alder, Field Maple, Birch, Hornbeam, Hawthorn, Beech, Crap Apple, Wild Cherry, Oak, Rowan and Lime.

Please note: It is not possible to select which fruit/varieties of tree you receive.
